Subject: Media Partners (8072)

Dear Alan,

It appears that there was leakage of inside information on 12-Sep-05, when the shares rose from \$0.65 to \$0.83 net, up 27.7%. 7.596m shares changed hands at an average price of \$0.76 that day. The shares were suspended the next day pending announcement of the takeover approach.

You should investigate probable insider dealing, if you are not already doing so.

Regards

David
